T O : ALL ELECTRIC COOPERATIVES

SUBJECT : REFERENCE FOR THE PREPARATION OF THE TOTAL ELECTRIFICATION MASTERPLAN : 2015 CENSUS (without growth rates)

In a coordination meeting conducted with the Department of Energy (DOE) to harmonize inputs and references in the preparation of the consolidated Total Electrification Masterplan, it was finally resolved that the basis to determine the level of consumer connections is the **2015 Census of Population and Households**, with **no growth rates** considered.

In this regard, we are providing you a copy of the potential number of connections per city/municipality under each Electric Cooperative resulting from our harmonization with DOE for your reference and inputs in your updated masterplans. The excel files are uploaded in the NEA website (www.nea.gov.ph) as well as in the google site <http://tiny.cc/TEPFiles>.
