

Republic of the Philippines National Electrification Administration

24 March 2008

MEMORANDUM No. 2008-002

TO

ALL ELECTRIC COOPERATIVES (ECs)

SUBJECT

Calendar Year (CY) 2007 Categorization and

Classification of ECs

The ECs' performance level for the year 2007 produced relatively impressive rating results as NEA tends to be more focused in serving the ECs with the end view of improving their viability in an open access environment.

For the period under review, results revealed the following:

- 1. Twenty (20) ECs belonging to Regions VII, X, and XI all attained a Category A+ rating, thus, earning the most outstanding performance as a region. This was made possible through a strong collective leadership and teamwork among ECs in their respective regions.
- 2. Category A+ ECs increased to 61 from 52 in the past year while 14 remained under Category E or non-complying.
- 3. Six (6) ECs garnered perfect score of 100 points including ZAMSURECO I which showed remarkable performance improvement from Category B (73 points) to A+ (100).
- 4. For the first time, system loss reached a national average of 13.87%, thereby attaining a level below the approved cap of 14%. Fifteen (15) ECs, just like last year, posted a single-digit mark.
- 5. Some ECs deteriorated in their collection performance resulting to the reduction in national average level of 95% from 96% in 2006.

While the combined efforts of NEA and the ECs gained positive results in system loss reduction, it is still an essential area in coop operations where we need to further improve. The demand for lowering power rates is imminent where reducing power losses as well as operating expenses can help.

In further preparation for competition, enhancement of the categorization criteria is currently being undertaken in order to be more responsive and reflective of the obtaining circumstances in cooperative operations. The enhanced categorization criteria shall be released in April 2008, and shall be effective for year 2008 evaluation.

Finally, the result of the 2007 Categorization and Classification, as attached, shall serve as basis for upward and downward implementation of per diems and allowances. Such adjustment shall take effect 01 April 2008.

MEMORANDUM FOR THE ADMINISTRATOR

FROM : THE CATEGORIZATION AND CLASSIFICATION COMMITTEE

SUBJECT: Calendar Year (CY) 2007 Categorization and Classification of

Electric Cooperatives (ECs)

.

May we submit the result of the Committee on Categorization and Classification's evaluation of the ECs' operational performance for CY 2007.

I. CATEGORIZATION

As stated in the Advisory to all ECs dated 27 February 2008, the same set of criteria for CY 2006 was applied which includes points on amortization payment, system loss, collection efficiency, payment to GENCO and TRANSCO, non-power cost, and barangay energization.

After a thorough evaluation of the ECs' request for reconsideration on the tentative result of 2007 categorization, remarkable improvements in the year's performance were noted compared with last year as summarized below:

| Category | 2006 | 2007 | Increase/ Decrease |
|----------|------|------|-----------------------|
| A+ | 52 | 61 | 9 |
| A | 15 | 12 | (3) |
| В | 19 | 13 | (6) |
| C | 6 | 6 | 0 |
| D | 5 | 4 | (1) |
| E | 13 | 6 | (7) |
| Total | 110* | 102* | |
| NC | 2 | 8 | |
| NE | 8 | 10 | |

^{*}Including NEECO II- Area 2

NC - Non-Complying

NE - Not Evaluated / Further Assessment

¥ 300

The following are the highlights of our evaluation:

1. Regional Performance

Result of assessment indicates a strong collective leadership and teamwork of member ECs within their respective regions. Aside from Region VII (9 ECs) which remains to be on top, another two (2) regions namely: X (8 ECs), and XI (3 ECs) deserve commendations for having all member ECs in their regions attain Category A+.

2. ECs with Perfect Scores

Six (6) ECs were able to earn 100 points. These are PROSIELCO, ZAMSURECO I, MORESCO I, DORECO, DASURECO and SOCOTECO I. ZAMSURECO I can be a strong candidate for the most improved EC award for its significant performance improvement, from Category B (73 points) in 2006 to A+ (100 points) in 2007 due to the marked reduction in system loss from 18% to 13%.

3. Amortization Payment to NEA

A total of 96 ECs or 94% are current in their amortization payments to NEA, 77 of which are regular loans while 19 are restructured. Of the said 96 ECs, 58 have advance payments, 31 of which garnered the five (5) maximum incentive points for advance amortization of at least five (5) EQAs.

4. System Loss

Fifteen (15) ECs were able to attain single-digit mark, namely:

| - | 6.42% |
|---|-------|
| - | 6.50% |
| - | 6.81% |
| - | 6.82% |
| - | 6.87% |
| - | 7.26% |
| - | 8.21% |
| - | 8.46% |
| - | 9.25% |
| - | 9.30% |
| - | 9.46% |
| - | 9.71% |
| - | 9.81% |
| - | 9.83% |
| - | 9.83% |
| | - |

On a regional basis, Region VII posted the lowest system loss level at 9.84%, followed by Regions XI (10:35%), X (11.86%), VI (12.36%), CAR (12.99%), IV-B (13.14%), III (13.46%) and XII (13.74%). These contributed to the national average of 13.87% which is below the cap of 14% or 0.42% lower than the 14.29% level in 2006.

Further assessment indicates, however, that system loss remains to be a major concern. Of the 102 ECs under review, only 68 ECs or 67% registered system loss within the cap of 14%.

5. Collection Efficiency

Twenty-two (22) ECs attained 100% collection efficiency on top of the additional 45 which posted collection performance within the NEA standard of 95%. Thus, a total of 67 ECs garnered maximum point scores of 15 under this criterion.

All ECs in Regions I, VII, XI, and CARAGA recorded at least 95% collection efficiency. The 2007 national average was computed at 94.51%, which is 1.41% lower compared to 2006 performance of 95.92%. This had been partly due to non-payment of power bills by some Local Government Units (LGUs) because of tax receivables and the effects of successive strong typhoons which hit the ECs in the later part of 2006 particularly Region V.

6. Payment to GENCO and TRANSCO

Eighty-one (81)) ECs are current in the payment of their power accounts including six (6) with restructured payment scheme. Seventy-five (75) ECs are current in their payments with TRANSCO, of which five (5) have restructured accounts.

There are only two (2) regions with all their respective ECs, which are current in payment and no restructured account with both GENCO and TRANSCO, namely: Regions VII and XII.

7. Non-Power Cost

All ECs in four (4) regions - I, X, XI and XII had their non-power costs within their respective approved level. A total of 83 earned the maximum point score of 10 for maintaining their expenditures within their approved non-power costs level.

8. Barangay Energization

There are 65 ECs which have attained the level of 100% barangay energization, as of December 31, 2007, including four (4) ECs with officially waived barangays.

9. Demerit Points for Cash Advances

Regions I, CAR, VII, X, XI, XII and CARAGA are the regions where all ECs did not incur even a single demerit point.

The number of ECs that improved, maintained and retrogressed in 2007 as compared to 2006 are 26, 70 and 6, respectively as indicated below:

| REGION | Improved | % | Maintained | % | Retrogressed | % | Total |
|--------|----------|-----|------------|-----|--------------|--|-------|
| - 1 | 1 | | 3 | | 0 | | 4 |
| Ш | 0 | | 4 | | 1 | | 5 |
| CAR | 1 | | 2 | | 1 | | 4 |
| Ш | 5 | | 7 | : | 0 | | 12 |
| IV-A | 1 | | 4 | | 0 | | 5 |
| IV-B | 2 | | 5 * | | 0 | | 7 |
| V | 3 | | 4 | | 0 | - | 7 |
| VI | 2 | | 5 | | 2 | | 9 |
| VII | 0 | | 9 | | 0 | | 9 |
| VIII | 2 | | . 8 | | _11 | ************************************** | 11 |
| IX | 1 | | 3 | | 0 | | 4 |
| X | 4 | | 4 | | 0 | | 8 |
| ΧI | 1 | | 2 | | 0 | | 3 |
| XiI | 1 | | 2 | | . 1 | | 4 |
| ARMM | 1 | | 2 | | 0 | | 3 |
| CARAGA | 1 | | 6 | | 0 | | 7 |
| TOTAL | 26 | 25% | 70 | 69% | 6 | 6% | 102 |

II. CLASSIFICATION

For 2007, we applied the same criteria on the Classification of ECs for 2006, using the average statistical data on MWH sales, service connections and kilometers of lines, for the last three (3) years.

The resultant classification of the evaluated 102 ECs is shown below:

| Classification | No. of ECs |
|----------------|------------|
| ML | 33 |
| ÈL | 31 |
| L | 23 |
| M | 11 |
| S | 4 |
| Total | 102* |
| NC | 8 |
| NE | 10 |

NC - Non-Complying

NE - Not Evaluated / Further Assessment

*Including NEECO II- Area 2
