**ADMINISTRATOR EDITA S. BUENO**  
National Electrification Administration  
Government Center, Quezon City

Dear **Administrator Bueno**:

I recently received a copy of the National Electrification Administration's publication, *Enernea* (Vol. II, No. 3), which carried the banner story of NEA as the first government corporation to implement the Electronic-New Government Accounting System (e-NGAS).

Let me congratulate the NEA for achieving such a milestone. Your leadership in implementing a more efficient and transparent accounting system is truly commendable. With the e-NGAS, I am confident that the Rural Electrification Program will be able to accomplish even more.

Thank you, and let us continue to work for rural electrification and countryside development in a transparent and efficient manner.

Sincerely,

*Popo*  
*R.P.M.L.*
