R.A. 7832 "Anti-Pilferage Act of 1994"

ISANG BATAS NA MAHIGPIT AT DIREKTANG IPINAGBABAWAL ANG PAGNANAKAW NG KURYENTE SA PAMAMAGITAN NG PAGGAMIT NG JUMPER, FLYING CONNECTION, AT IBA PA. GAYUNDIN ANG PAGNANAKAW SA MGA MATERYALES NA GINAGAMIT SA TRANSMISYON O DISTRIBUSYON NITO.

Ang sinumang makapagsusumbong sa iligal na paggamit ng kuryente ay magkakaroon ng pabuya (matapos mahuli at mapatunayang nangdaraya) mula sa ating Kooperatiba. Mananatiling "STRICTLY CONFIDENTIAL" ang pagkakakilanlan ng nagsumbong. Ipagbigay alam sa pinakamalapit na tanggapan ng QUEZELCO 1 sa inyong lugar.

Format:
RA7832/Pangalan ng Pinaghihinalaang nagnanakaw ng Kuryente/ Kumpletong Address/Landmark/Uri ng Pagnanakaw ng Kuryente/ Alyas ng nagreport

Ang iligal na paggamit o pagnanakaw ng kuryente ay may mabigat na kaparusahan kagaya ng mga sumusunod:

1. *Para sa di awtorisadong pagsira ng selyo, paggalaw o pagbubukas ng metro (tampering of electric meter) at paggamit ng anumang koneksyon upang nakawin ang kuryente.*

- **PRISON MAYOR** - pagkabilanggo mula 6 na taon at 1 araw hanggang 12 taon o
- **MULTA (Fine)** - halagang Php 10,000.00 hanggang Php 20,000.00 o magka samang pataw ng mga naturan.
  - **BALIK-KWENTA (Differential Billing)** - hanggang 5 taon ng kaukulang kwenta ng ninakaw na kuryente.
  - **DAGDAG SINGIL (Surcharge)** - hanggang 100% batay sa kasalukuyan buwanang konsumo ng kuryente.

- **MULTA** - halagang mula Php 50,000.00 hanggang Php 100,000.00 o magkasamang pataw ng mga naturan.

Ano ang epekto ng mga ninanakaw na kuryente sa ating kooperatiba?

Ang pagnanakaw ng kuryente ay isa sa mga dahilan kung bakit patuloy na tumataas ang system loss o iyong mga kuryenteng hindi nababayaran dahil hindi dumadaan sa kuntador. Ito ay malaking kalugihan sa ating kooperatiba at ang nawawalang kuryente ay dagdag bayarin din ng ating mga kasapi.

LAHAT TAYO AY MAY PAKIALAM!!!

Kung may alam na iligal na paggamit ng kuryente. Magtext sa mga numerong bantay sa nakaw kuryente.

COLLECTION at DISCONNECTION Policy

Ang Collection at Disconnection Policy ay mahigpit na ipinatutupad ng Quezelco 1 para sa mga delingkwenteng kasapi/tagatangkilik/kamay-ari ng kooperatiba. Nasasaad dito na dapat bayaran sa loob ng siyam (9) na araw matapos ibigay ng meter reader ang statement of account sa mga kasapi. Matapos ito ay ipapataw na ang 10% penalty.

Kung hindi nabayaran ang bill matapos ang due date ay maaari nang maputulan ng serbisyo ng kuryente makalipas ang 48 oras. Ang pagbabayad at kahilingan sa muling pagpapakabit ng kuntador ay dapat isagawa sa sangay-tanggapan ng Quezelco 1. Upang makaiwas sa disconnection, bayaran agad ang bill sa sangay-tanggapan o sa mga otorisadong payment center sa loob ng itinakdang panahon.

Maibabalik ang serbisyo ng kuryente sa naputulang kasapi/tagatangkilik/kasapi sa loob ng 24 oras matapos mabayaran ang kabuuhang halaga na nasa resibo kasama ang reconnection fee na P112.00. Ang itinakdang oras ay maaaring madagdagan pa kung may makatwirang dahilan.

Sa pagkakataon na hindi maipakabit muli at mabayaran ang pagkakautang ng naputulang kasapi/konsumidores sa looban ng anim (6) na buwan simula sa araw na ang serbisyo ay pinutol, ang rehistradong kuntador ay babawiin ng kooperatiba at tatanggalin sa lugar na pinagkakabitan nito.

PAALALA:
Dalahin ang puting resibo o statement of account kung magbabayad ng bill.

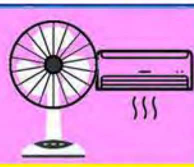
Tipid Tips sa Paggamit ng KURYENTE

Linisin ang filter ng aircondition unit at elisi ng bentilador buwan-buwan.



Gumamit ng Compact Flourescent Lamps (CFL). Ito ay nakakakonsumo ng 1/4 sa kabuuang dami ng nakokonsumong elektrisidad ng Incandescent lamps. Patayin ito kapag hindi na ginagamit.

Magkaroon ng takdang araw sa isang linggo sa paggamit ng washing machine at pagpaplantsa ng mga damit. Unahing plantsahin ang makakapal at mabibigat na damit at ihuli ang man-inipis na damit.

Huwag hayaang nakasaksak ang mga kagamitan sa bahay kapag hindi ito ginagamit.

Maaaring magbuksan ng bintana upang pumasok ang hangin sa halip na gumamit ng bentilador o aircon.

Magkaroon ng schedule sa pagdedefrost ng freezers o refrigerator. Siguraduhing malinis at nakasara ng maayos ito.

GABAY-KALIGTASAN sa Paggamit ng KURYENTE

PAGPUPUTOL NG PUNO

Ang pagputol ng mga sanga at puno na malapit sa linya ng kuryente ay maaaring magdulot ng aksidente. Ipagbigay alam agad ito sa QUEZELCO 1 upang maisagawa ang tama at ligtas na pagpuputol ng mga sanga at paglilinis ng linya.

PAGPAPALIPAD NG SARANGGOLA

Huwag magpalipad ng saranggola malapit sa mga linya ng kuryente. Mahigpit itong ipinagbabawal ng QUEZELCO 1 dahil maaari itong makapinsala na siyang magdudulot ng biglaang pagkawala ng daloy ng kuryente sa inyong lugar.

PUTOL NA LINYA NG KURYENTE

Kung may naputol na linya ng kuryente at ito ay sumayad sa lupa o anumang bagay, huwag lumapit at huwag hawakan sapagkat nakamamatay Sa halip, ito'y ipagbigay alam kaagad sa QUEZELCO 1.

Circuit Overload

Iwasan ang sabay-sabay na pagsaksak ng mga appliances na may malalaking konsumo tulad ng plantsa, rice cooker, electric stove at iba pa sa iisang outlet lamang. Ito ay kadalasang nagiging sanhi ng pagkasunog nito.

Iligal na Koneksyon

Ang "flying connection/ illegal connection" ay karaniwang sanhi ng sunog at disgrasya. Upang mapangalagaan ang inyong bahay at ari-arian, huwag makikabit sa kapit-bahay. Kumuha ng kaukulang papeles sa lokal na pamahalaan upang magkaroon ng sariling linya ng kuryente.

HUWAG HUMAWAK SA KAGAMITANG DE-KURYENTE, SAKSAKAN AT SWITCH KUNG BASA ANG KAMAY

Huwag hawakan ang mga gamit na de-kuryente, mga saksaksan o switch kung basa ang kamay. Iwasang gumamit ng extension cord sa mga basang lugar tulad ng banyo o kusina.

the 12 DAYS OF HOLIDAY SAFETY

1 LIGHTS OUT!
Always turn off holiday lights when you leave the house unattended or when going to bed. The lights could short out and cause a fire.

2 Merry & BRIGHT
Carefully inspect holiday light strings each year and throw away any with frayed cords, cracked lamp holders or loose connections. When replacing bulbs, unplug the light string and be sure to match voltage and wattage to the original bulb.

3 Planes, Trains & AUTOMOBILES
Extended vacations are common during the holiday season and criminals keep their eyes open for empty homes. Ask a friend or neighbor to pick up the mail, leave a few indoor lights on and do not leave a spare key in an easy to find place. Never discuss your vacation plans with strangers or post it on social media sites.

4 TREE TOPPERS
Place ornaments higher on the tree than children or pets can reach. If swallowed, ornaments or pieces of them can cause blockages or other serious injuries. The hooks that many ornaments use are detachable and pose a choking hazard.

5 CAUTIOUS COOKING
Don't leave any food out at room temperature for more than two hours. Use sealable containers and don't over pack the fridge; the air needs to circulate to maintain the proper temperature. Baked goods should be thrown out within a few days.

6 Tinsel-less Town
Small children and pets love this sparkly, light-catching "toy" that's fun to play with, but if swallowed or accidentally wrapped around them it can be very dangerous.

7 Furries shouldn't feast
By now you know not to feed your pets chocolate or anything sweet-ened with xylitol but pets have a way of sniffing out yummy treats. Keep your pets away from the table and unattended plates of food and be sure to secure the lids on garbage cans.

8 HUSTLE & BUSTLE
Shop during daylight hours whenever possible. If you must shop at night, park closer to the stores or near a light post so when you return you are visible in a well-lit area.

9 WRAPPING PAPER woes
Don't burn used wrapping paper as it may cause intense flash fires. Throwing it out adds waste, so consider recycling or repurposing it instead.

10 twinkletwinkle
Do not connect more than three miniature light strings together. Cords should not be run under carpets or tacked-up with nails or staples.

11 NOT SO merry matches
The number of fires caused by children playing with fire goes up significantly during the holidays. Keep matches and lighters out of sight and out of kid's reach. Make sure you buy a "child resistant" lighter.

12 o CHRISTMAS TREE
Natural trees always involve some risk of fire. To minimize risk, get a fresh tree and keep it watered at all times. Do not put the tree within three feet of a fireplace, space heater, radiator or heat vent.
