MEMORANDUM **2023 - 14**

TO : ALL ELECTRIC COOPERATIVES (ECs)

ATTENTION : REGIONAL ASSOCIATIONS
PHILIPPINE ASSOCIATION OF TECHNICAL MANAGERS
ELECTRIC COOPERATIVES (PHILATMEC)

SUBJECT : NEA PRICE INDEX

The National Electrification Administration (NEA) is reviewing the 2022 NEA Equipment and Materials Price Index, considering the conflict between Russia and Ukraine and the COVID-19 pandemic's effects on the global and local prices of products and services as well.

One of the considerations to support this NEA initiative in collaboration with partner ECs is to look into the historical prices of the equipment and materials used by the ECs in their network and non-network distribution facilities. Data sources from the ECs will then be analyzed and summarized into a basic price index.

For uniformity, we prescribed a template (attached herewith) with the following data that should be submitted:

1. Equipment and Materials Description, Specification, Country of Origin;
2. Prices of Equipment and Materials, and Services from latest winning bidders conducted, Alternative Modes of Procurement and Month - Year provided columns in the template and those not on the list, such as for the 69kV sub-transmission line and among others.

This time, the data submission to NEA shall be per region to be collated by the regional PHILATMEC from each member ECs. The direction is to come up with a regional price index towards a regional hub for equipment and materials stock requirements as a buffer for disaster rehabilitation, electrification projects, and CAPEX, among others.

We look forward to your support and submission of the requested data by February 28, 2023, through nea.engineeringtod@yahoo.com

You may contact our Engineering Department directly through the above email address for further guidance.

For your compliance.
